

Derrick Jensen & Stephanie McMillan: Ahogy Ég a Világ - 50 egyszerű dolog, amit megtéve tagadásban maradhatsz

Az USA kormánya úrból jött robotoknak engedélyt ad a bolygó felfalására aranytéglákért cserébe. Egy félszemű nyúl megmenti barátait egy nagyvállalat állatkísérlet-laboratóriumából. És két kislány felfedezi a titkot a világ megmentésére mindkét ellenségétől (és ez nem az energiagazdaságos izzók vagy a biodízel)... Az *Ahogy Ég a Világ* egy roppant szórakoztató és szemfelnýtító történet arról, hogy állítsuk meg az élővilág pusztítását mielőtt még túl késő lenne.
